* on IATA code indicates a controlled duplicate.
italics indicates a defunct airline.

IATA Traffic Conference Areas

The International Air Transport Association (IATA) divides the world into three areas called the Traffic Conference Areas (TCAs) for air travel purposes. These areas are used to define geographical boundaries for fare construction and other industry-related practices:^[60]

- Traffic Conference Area 1 (TC1) – this area includes the Americas, encompassing North America (the Caribbean, Central America, and Northern America) and South America.
- Traffic Conference Area 2 (TC2) – this area includes the EMEA region, encompassing Europe, the Middle East, and Africa (North Africa and Sub-Saharan Africa).
- Traffic Conference Area 3 (TC3) – this area includes the Asia–Pacific region, encompassing the rest of Asia (Central Asia, East Asia, North Asia, South Asia, and Southeast Asia) and Oceania.

Essentially, TC1 covers the "New World", while TC2 and TC3 together cover the "Old World" (Africa-Eurasia) and the "Land Down Under".
